

Research Study

The Cancer Survivorship Experience of Muslims in the US: Comparison of Three Muslim Ethnic Groups

The study will explore the experiences of Muslim cancer survivors. Study findings will be used to inform health care providers of Muslim cancer patients' cultural and religious needs

WHO IS ELIGIBLE?

- age 18 years or older
- identification as Muslim;
- able to speak and read either Arabic, English, or Urdu;
- able to participate in the interview; and
- one to six years post cancer Diagnosis.

What will you be asked:

- A 45-60 minute face-to-face or online or phone interview in your preferred language.
- Completing one questionnaire.

Compensation: You will receive a non-monetary gift valued about \$25 for each interview.

If you have any questions or are interested in participating, please contact
